For the first time in twenty-eight years Lockport, N. Y., has gone Republican.

THESE are not THE LEDGER'S "croaks." They are simply "howls" from the industries and workingmen that were promised such prosperity-when Mr. MARSH. CLEVELAND and the Democratic party got into power:

PUTTBURGH, April 10th.-The heaters a 10 per cent. reduction in wages.

AKRON. O. April 10th. - The employes of the Werner Printing and Lithograph Company, the largest in the world, went debt increased \$9,038,930. The State out to-day over a reduction of 10 per cent. Treasurer of Kentucky also says that his in wages. Nearly 1,000 are affected.

DERRY, CONN. April 10th .- The Star Pin Company reduced wages to-day in the hairpin and paper box departments for the third time since January. All the hands in the hairpin department, except is plenty of money in the Taeasury? two, have struck.

NEW BEDFORD, Mass., April 10th -Wamsutta officials made another unsuccessful attempt to run the mill. Not one of the striking weavers responded to the all France. New York, with five million notice of "open gates," neither did the dele gation of Knobsticks from Rhode Island and Lawrence show up. This is the eighth week of the strike.

Columbus, O., April 10th.-The annual National Convention of the United Mine | Colonels to name counties after, and she Workers, began here today. It is has such magnificent Legislatures to probable that the order for a general strike will be issued as soon as the report of the Scale Committe is adopted, and possibly it may come tomorrow. In this event tician generally has an eye single to the 200,000 miners will be affected. Of this main chances. number 16,000 are residents of Ohio.

CHICAGO, April 10th .- The lockout in | THE Commercial Gazette, while absothe building trades is declared, and it lutely opposed to Democratic tinkering . will go into effect Thursday morning at 7 o'clock. The lockout will affect all branches of the building trade and will within the line of intelligent consideraaffect sixty thousand men.

entire existence of this Democratic- GRANT, who was a very wise man, almost British-Free-trade-Administration.]

THE largest item of expense under most governments is that of annually recurring interest on the public debt.

Interest on the Wational Debt.

This is particularly in the case of France, with a per capita debt of \$116, Great

Britain with \$88, Italy with \$76, and Spain \$73. Senator VOORHEES, Chairman of the Finance Committee of that body, in his speech in the Senate on Monday estimated that \$29,000,000 would be required this year to pay the interest on the United States debt. It will not be far from that figure, having been \$23,- Has a Larger Daily Circulation than any other 378,116 in 1892 and \$27,264,392 in 1893. This interest charge was until 1883 DAILY. the chief governmental expenditure. Since that time, by the wise laws enacted The Aggressive Republican Journal of the Metropolis-A Newspaper for the Masses. by successive Republican Congresses, and approved by Republican Presidents, it has gradually been reduced from \$100,-000,000 in 1876 to \$23,000,000 in the last Circulation Over 100,000 to ples Daily. year of President Harrison's Administration.

The whole debt of the United States on July 1st, 1861, was over \$90,000,000. Five years later, July 1st, 1866, it was \$2,773,336,173. This difference represented the expenditures of four years of carnage and strife, the maintenance of enormous armies in the field, the provisioning of vast bodies of troops, the construction of an American navy, the safeguarding of our ports and harbors, and the shortage caused by the decline, through war, of many sources of ordinary Federal revenue.

But though less than thirty years have clasped since the close of the war, the interest charge on the remaining debt is now actually less than the current running expenses of the Democratic city of New York. The former is \$29,000,000; the later is exactly \$29,667,701.

In Orange, N. J., for the first time in wenty years the Republicans control all the branches of the city government at one time.

Make all the fun of Coxey's army you please, but don't forget that it can outnumber the Democratic party of Rhode Island and have men to spare.

THE public debt increased during March \$13,754,472 54, and Brother MARSH will please note that the increase was not caused by the issue of bonds, either.

In a recent election at Albany, N. Y., the Cleveland Democracy was defeated by a tremendous majority. The result is that the party that has controlled the city government for more than fifteen years must leave the offices.

The ratio of insanity is greatest in Ireland, 37 to 10,000; the United States comes next with 33. The reason for this may be found in the fact that, next to Ireland, the greatest number of Irishmen are found in the United States.

In Rhode Island, which is usually Democratic, it has taken a search light to find the remains of the Democracy. The result of the recent election gives that party only five in a total of 108 members of the Legislature. The last Legislature had a Democratic majority. This is "information" for you, Brother

THE Democratic party is true to one of its pledges-it disposes of a "surplus" of Oliver's rod mill are on a strike against wherever it finds one. The decrease of cash in the Federal Treasury during March was \$4,712,339, and the public account is overdrawn to the modest amount of \$125,000. Will Brother Marsh please rise up and tell us that the Treasurer doesn't know-that there
